

IBEW LOCAL 103 MENTORSHIP PROGRAM

Join our union mentor/mentee program to grow in your career and make a difference!

We are stronger when we work together. That's why, we're launching the new IBEW Local 103 Mentorship Program to connect our apprentices and new journeymen with industry veterans.

This program aims to create an infrastructure that enables everyone to learn, grow, ask questions, gain confidence, expand their knowledge and flourish in the electrical industry. It also intends to create a safe space to discuss and troubleshoot difficult workplace situations.

Mentors are available to help guide our newer professionals, and help you build strong relationships that will last for years to come!

- ✓ Meet once a month (or more!) with your mentor or mentee
- ✓ Additional networking event opportunities

Scan the QR code above and fill out a brief survey to be matched with a union Brother or Sister! The survey will take approximately 10-20 mins to complete.
