

Subject: Wentworth & Local 103 Partnership

Dear Members,

Since the beginning of this pandemic, Wentworth has been working tirelessly to address all academic concerns for current and incoming students. We understand the unique challenges that this crisis presents to adult students who are balancing work, family and school and we want to assure you that your safety and well-being are our utmost concern.

In the meantime, we hope that you take advantage of the current situation to sharpen your skills and knowledge through the partnership that Wentworth and Local 103 have created for their members. To that extent, Wentworth has transitioned all classes to online for this summer and has allowed flexibilities for Local 103 members to take classes as follows:

- **April 15 Deadline – For members who want to start classes the week of May 4**
- **On-going Application Deadline – For members who want to start classes the week of June 22**

Though these are unprecedented times, Wentworth admissions and advising teams remain committed to delivering the same, high-quality, and innovative services to our students. They are available for virtual advising on one-on-one appointment at regular business hours and the application process can also be completed online.
